

South Region Soccer League

New Information for Referees

Welcome to the 2009 soccer season! With the season fast approaching, the league would like to give you some information regarding referee log-in for the South Region Soccer League this summer.

If you refereed for the league last summer, you are familiar with the online scheduling system Disc2k. This year, our developer has created a more user-friendly version called Sched2k to assign games to referees. Please refer to the login information listed below.

SCHED2K WEBSITE: http://www.southregionsoccer.ca/sched2k_login.php

LOGIN EMAIL: *Returning SRSL Referee* – same email address as the one you used last year

New SRSL Referee – the email address you used to register with the OSA this year

LOGIN PASSWORD: *Returning SRSL Referee* – same password as the one you used last year

New SRSL Referee – your OSA number

Once you have logged in, it is crucial for you to begin setting up your availability and field preferences (under Referee Activities). The sooner you can do this, the sooner you will receive games!

South Region Soccer League
